Annex 1

9th Call for Proposals 2013

Innovative Medicines Initiative

Version 2

TABLE OF CONTENTS

GENERAL PRINCIPLES.....	2
1. WEBAE - LEVERAGING EMERGING TECHNOLOGY FOR PHARMACOVIGILANCE.....	6

WEB-RADR Consortium

WEB-RADR is born - 1st September 2014

Web-Recognising Adverse Drug Reactions

Embracing new technologies

Both public and private partners involved

Reports via mobile app vs established reporting schemes

Algorithms and analytics

Develop a policy framework

Reshape the pharmacovigilance world

WEB-RADR active participants

Our Vision

New technology giving tools to transform pharmacovigilance in modern world

Developing policy to influence how they are used

Using the best possible science to do this

Tools everyone wants to use

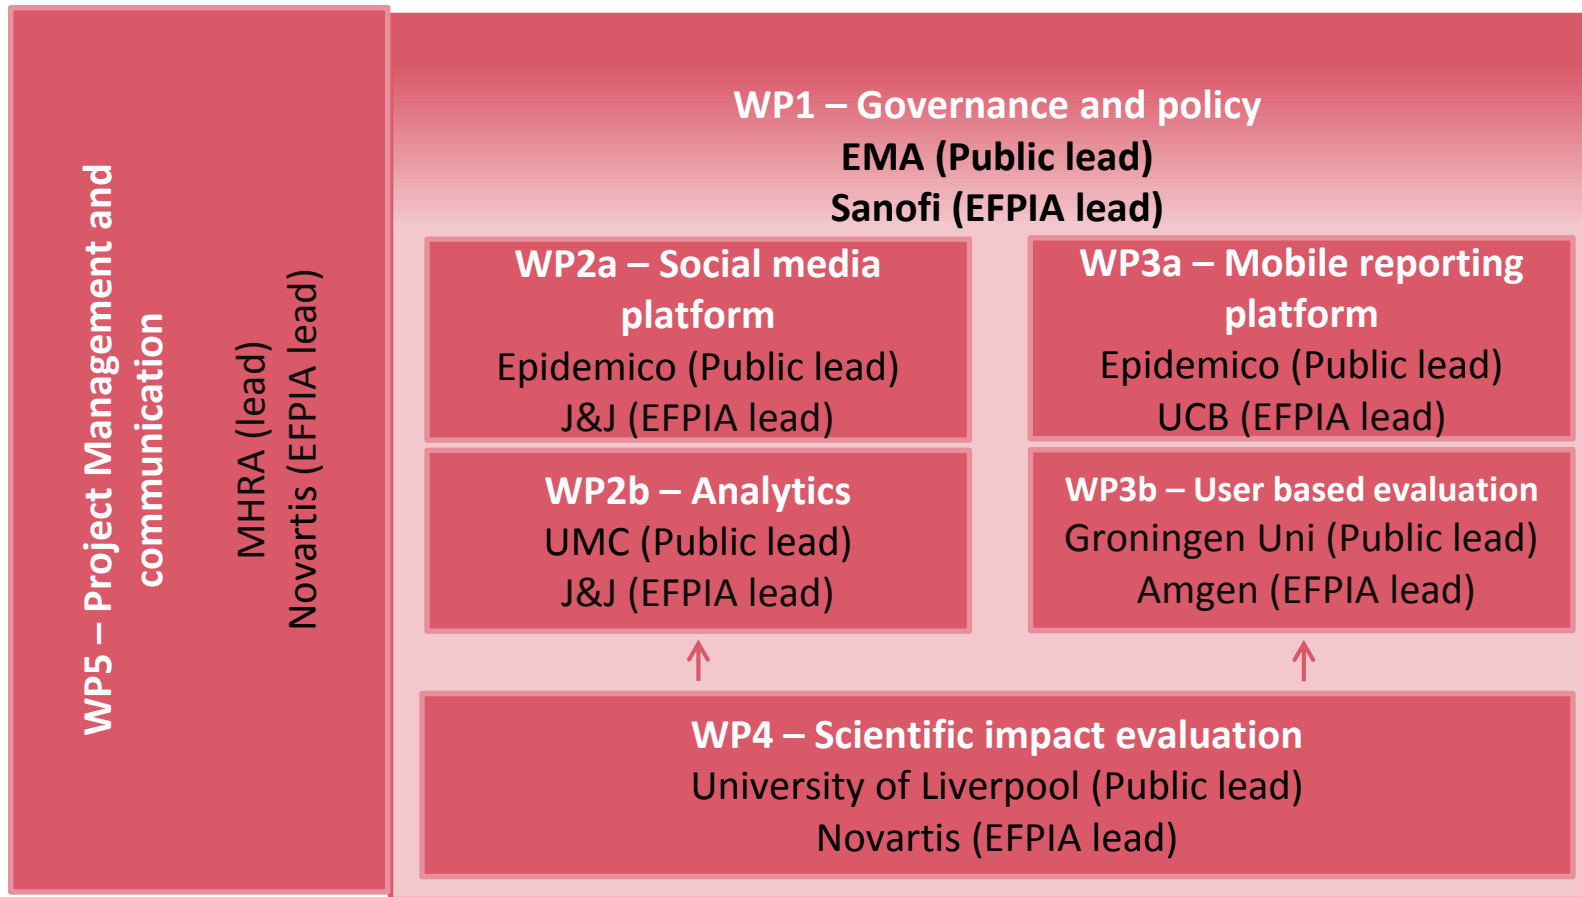

Shaping the pharmacovigilance world of the future

Project values

Project design

WEB-RADR collaboration

Work Package Leaders

Amgen

EMA

Epidemico

JNJ

MHRA

Novartis

Sanofi

UCB

UMC

UMCG

UoL

All Other Partners

AZ

Bayer

EURORDIS

HALMED

LAREB

MedDRA MSSO

SRDC

UCL

General Advisory Board Members

June Raine

Robert Ball

Shanti Pal

Saad Shakir

Daniel Sokol

All External Participants

Stakeholder meetings

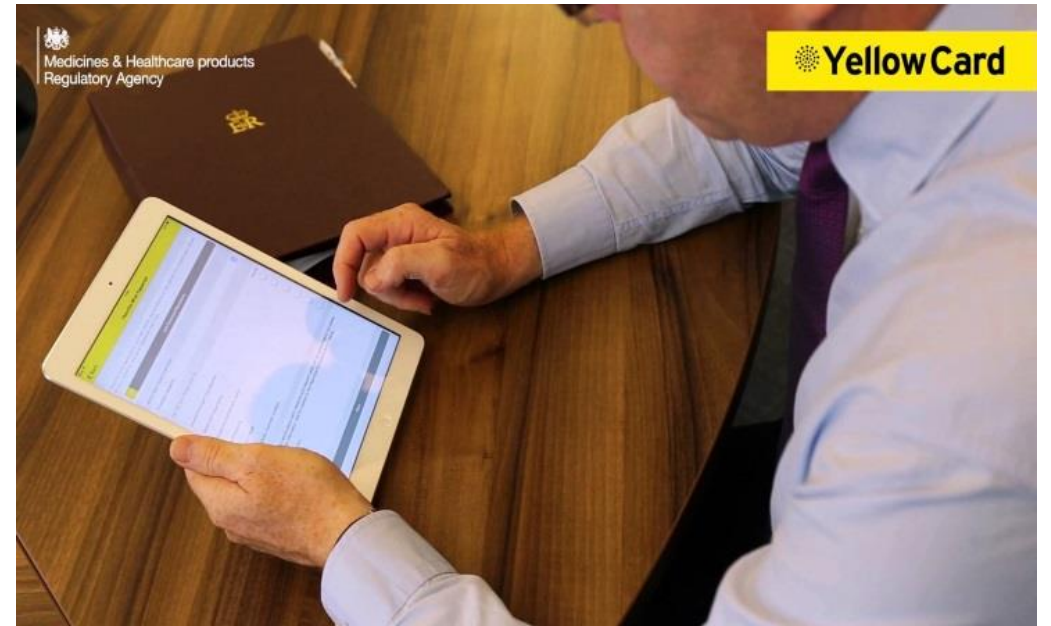

Focus group participants

All other external advice and input

Hitting the ground running...

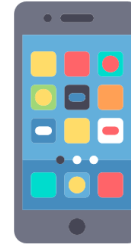

Yellow Card app launch 14 July 2014

WEB-RADR Outputs

Scientific findings

Mobile applications

Publications

Reference data set

**Policy
recommendations**

**Social media
dashboard**

**Mobile app
pilot in Africa**

Stakeholder events

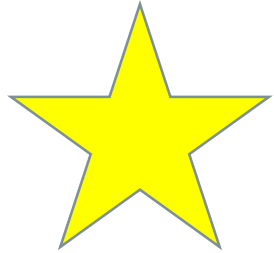

**User
evaluation**

**WEB-RADR
Management Board**

WEB-RADR's golds

Data and research

Policy recommendations

Technology products

Sustainability strategy

WEB-RADR delivered on the long distance

So where from here?

Themes of the day

- 1 Approaches to using social media for pharmacovigilance**
- 2 Using mobile technology for real-time pharmacovigilance**
- 3 Sustainability and future opportunities**
- 4 Maximising value of mobile health in the new vigilance world**

Discussion - open forum, share your thoughts and ideas!

Deliverables of the day

- 1 **Share** WEB-RADR's major achievements, including scientific and policy recommendations
- 2 **Explore** building WEB-RADR's sustainability
- 3 **Create** vision for the optimal use of new pharmacovigilance tools

Vision for the future

**Are we ready for the
new vigilance world?**
