

Innovative Medicines Initiative

WEB-Recognising Adverse Drug Reactions 2

Stakeholder-focused webinars

Introduction

Over the 18-month exploitation project, WEB-RADR 2 has significantly enhanced its mobile application platform and now offers the ability to embed the functionality into systems, applications and websites by use of Application Programming Interfaces (APIs), based on public and European Federation of Pharmaceutical Industries and Associations (EFPIA) requirements. These enhancements have facilitated adoption in eight countries and fostered a successful partnership with the World Health Organisation to continue the roll out the technology in the future.

In addition, bi-directional maps between SNOMED CT and MedDRA terminologies have been successfully completed for frequently used terms. Led by SNOMED International and MedDRA MSSO, the maintenance model of such mappings has been explored, to support implementation after the project. Connectivity protocols with electronic healthcare record (EHR) databases have also been explored within United Kingdom and Danish settings, such that adverse drug reaction (ADR) and regulatory information can be made available in the healthcare record.

Overview of webinars

WEB-RADR 2 outputs will be showcased across three stakeholder-focused webinars. The webinars will promote project sustainability and display the fantastic collaborative work achieved over the project.

Date	Time (UK)	Title
22 June 2020	14:00-15:00	WEB-RADR 2 technology and innovation
24 June 2020	16:00-17:00	WEB-RADR 2 terminology mappings
29 June 2020	14:00-15:00	WEB-RADR 2 future opportunities and sustainability

Please register your interest in attending the webinars via [Eventbrite](#). Registration closes on Friday 19 June 2020. Registered participants will receive connection details before each webinar.

Participants are invited to submit questions during the webinars. Speakers will be given time at the end of each session to continue discussion and address relevant questions. There is a dedicated question and answer session within each webinar.

The webinars will be recorded and made available on the WEB-RADR website.

Should you have questions about the webinars please contact: WEB-RADR@mhra.gov.uk.

Best wishes,
WEB-RADR Team

Webinar 1: WEB-RADR 2 technology and innovation

22 June 2020, 14:00-15:00 UK

Welcome David Lewis, Novartis Phil Tregunno, MHRA	14:00
Platform user needs and requirements Linda Härmark, LAREB	14:05
Technology development Kendal Harrison, MHRA	14:10
Mobile application overview Kendal Harrison, MHRA	14:20
Industry case study: AbbVie e-PV mobile application Calvin Johnson, AbbVie	14:30
Application Programming Interfaces within the Danish healthcare setting Mona Vestergaard Laursen, DKMA	14:40
Question and answer	14:50
Concluding remarks Phil Tregunno, MHRA	14:55
Close	15:00

Webinar 2: WEB-RADR 2 terminology mappings

24 June 2020, 16:00-17:00 UK

Welcome David Lewis, Novartis Phil Tregunno, MHRA	16:00
Work Package 4: Terminology Mapping And Maintenance Jane Millar, SNOMED International Patrick Revelle, MedDRA MSSO Judy Harrison, MedDRA MSSO	16:05
Question and answer	16:35
Concluding remarks Phil Tregunno, MHRA	16:55
Close	17:00

Webinar 3: WEB-RADR 2 future opportunities and sustainability

29 June 2020, 14:00-15:00 UK

Welcome David Lewis, Novartis Phil Tregunno, MHRA	14:00
Patients and two-way communication tools François Houyez, EURORDIS	14:05
Global pharmacovigilance – Med Safety mobile application Shanthi Pal, WHO	14:15
Medical devices Charlotte Goldsmith, MHRA Tony Sant, MHRA	14:25
WEB-RADR platform Phil Tregunno, MHRA	14:35
Question and answer	14:45
Concluding remarks Phil Tregunno, MHRA	14:55
Close	15:00
