## **1. PURPOSE**

- 1.1. To document how South African Health Products Regulatory Authority's manages applicant's data and protects such data on Med Safety App. SAHPRA is committed to protecting your data privacy and security. This privacy shall apply on SAHPRA and its participation in Med Safety App.
- 1.2. This data protection policy shall ensure SAHPRA:
  - Complies with data protection law and follow good practice
  - Protects the rights of applicants, and their products
  - Protects itself from the risks of a data breach.
  - This Privacy Policy sets out the manner in which personal information is collected, stored, and used by SAHPRA in terms of the process of Adverse Drug Reaction (ADR) Reporting through the Med Safety App.

## **2. DEFINITIONS**

### **2.1. What is Data?**

Data means facts and statistics collected by South African Health Products Regulatory Authority for reference or analysis and this data can be as written documents/records or electronic format.

### **2.2. Why do we need data?**

The Regulator requires data in order to ensure the protection and promotion of public health and patient safety by ensuring that medicines are used safely and meet appropriate standards of safety, quality, efficacious.

### **2.3. What is ADR?**

An adverse drug reaction (ADR) means a noxious and unintended response to a medicine, including lack of efficacy, and which occurs at doses normally used in man and which can also result from overdose, misuse or abuse of a medicine. The reaction may be a known side effect of the medicine or vaccine or it may be new and previously unrecognized. ADR can be caused by any therapeutic agent, including prescribed and over the counter (OTC) medicines, vaccines, and complementary medicines, and all of these should be reported.

ADR Reporting data is used by SAHPRA to identify and monitor early signs of medicine-related safety concerns that may require further investigation. It is important for people to report problems experienced with medicines or medical devices as these are used to identify issues which might not have been previously known about. Through this process, the Regulator aims to minimize the risk of harm to patients.

### **2.4. Who is SAHPRA or the Regulator?**

South African Health Products Regulatory Authority is a 3A entity of the Department of Health established in terms of the Medicines and Related Substances Act ("the Medicines Act") with the objects of providing monitoring, evaluation, regulation, investigation, inspection, registration and control of medicines, scheduled substantives, clinical trials and medical devices, IDV's and related matters in the public interest
